

REMARKS

In response to the Requirement for Restriction in the above-identified Office Action, applicants hereby elect with traverse Group II, namely claims 46-50 and 54-56 for prosecution at this time. If necessary, applicants reserve the right to present the subject matter of claims withdrawn from this application in a divisional application at the appropriate time.

Applicants traverse the restriction requirement on the grounds that an office action has already been issued in this application on claims 26-50, of which claims 26-45 (in Group I) are directed to a starter and claims 46-50 (in Group II) are directed to a timepiece. Applicants responded to that office action by amending each of the independent claims and adding claims 51-56, of which claims 51-53 are directed to a starter and claims 54-56 are directed to a timepiece. Also, to further show unity of invention between the two claim groups subject to restriction, applicants have amended each of the independent claims directed to a starter, namely, claims 26-29, 51 and 53 to indicate that the starter is for an electric power generator for a timepiece.

In view of the foregoing amendments and remarks, applicants respectfully request that the restriction requirement be withdrawn and that all pending claims be reconsidered on the merits.

Respectfully submitted,

Michael T. Gabrik
